

## Edmonton Soccer Dome Information Sheet

The 135,000 square foot Edmonton Soccer Dome - Canada's largest Air-Support Structure - features industry-leading technology, including FieldTurf's FIFA Quality Pro certified CORE artificial playing surface.

The Edmonton Scottish Society's Soccer Dome is Phase 1 of a multi-phase project; while the Dome itself is fully-functioning, the area itself (parking lot and ancillary buildings) are either under-construction, or temporarily modified to service our Indoor Facility. We ask for patience and understanding during our transformation: as John Heywood once said, "(Dome) wasn't built in a day, but bricks were laid every hour."

Thank you for your cooperation; our Facility Rules and Regulations are available at [www.edmontonsoccerdome.com](http://www.edmontonsoccerdome.com)
